Leep Networks Water Limited

Statement of Assurance: Wholesale Charges 2026/27

This Statement of Assurance has been prepared for approval by the Board of Leep Networks (Water) Limited (LNWL) and for submission to Ofwat in accordance with the Wholesale Charging Rules.

LNWL is a New Appointments and Variations (NAV) company operating under a relative price control. As such, LNWL does not design or set wholesale tariffs. Our Wholesale Charges for 2026/27 mirror the published wholesale charges of the relevant incumbent undertakers for each appointed area and do not exceed those charges for equivalent services.

In preparing our charges, LNWL confirms that:

- We have applied the 2026/27 wholesale charges exactly as published by each relevant incumbent undertaker.
- We have complied with Ofwat's Wholesale Charging Rules (October 2025).
- We have undertaken appropriate internal checks to ensure the accurate transposition of incumbent tariffs into LNWL's charging tables.
- We have engaged with relevant stakeholders to ensure transparency and understanding of the changes ahead of publication.

As a NAV, LNWL does not undertake tariff modelling or bill-impact assessments, as these are undertaken by incumbent undertakers. Changes in LNWL's wholesale charges therefore reflect changes made by incumbents, including updates driven by PR24, CPIH and in-period ODI adjustments. Where significant changes occur, LNWL will ensure clear communication with affected retailers.

Board Confirmation

The Board confirms that LNWL complies with its legal obligations, that this Statement of Assurance is accurate, and that appropriate internal processes have been followed in preparing and publishing the Wholesale Charges for 2026/27. The Board further confirms that the levels of service offered remain at least comparable to those under the relevant incumbent arrangements.

Signed:

Louise Manfredi
