1.4. Procedure for Applying for Metering Point Administration Services 4

2. **Charges for Metering Point Services** 5
2.1. Basis of Charges 5
2.2. Table of Charges 6

1. Introduction

1.1 Leep Electricity Networks Limited

Leep Electricity Networks Limited (LENL) is an independent electricity distribution business, licensed to adopt, operate and maintain electricity distribution networks in Great Britain.

This statement has been prepared in accordance with the requirements of licence condition 14A of the Electricity Distribution Licence granted in accordance with the provisions of the Electricity Act 1989 (as amended from time to time).

These charges are provided pursuant to Schedule 7 of The Master Registration Agreement. Additional services will be quoted separately and will be billed in accordance with the Distribution and Connection Use of System Agreement.

1.2 Purpose of this Statement

This statement sets out the basis upon which charges will be made for the provision of metering point administration services to enable an electricity supplier to make a reasonable estimate of charges it would be liable to pay for the provision of such services. It is prepared in accordance with the requirements of LENL's electricity distribution licence issued under the Electricity Act 1989 (as amended by the Utilities Act 2000) and the Master Registration Agreement.

This statement describes the process for obtaining metering point administration services. This statement also details the costs for each activity which are not included with LENL's distribution use of system charges.

It should be noted that LENL are not currently a meter operator and therefore, does not charge for meter operator services.

1.3 Persons Entitled to Apply for Metering Point Administration Services

An applicant applying for the use of LENL metering point administration services must be a licensed electricity supplier and a signatory to the Master Registration Agreement and the Distribution Connection Use of System Agreement. LENL are required by its licence to establish or procure data transfer services. These services are provided under contract by ElectraLink. Persons requiring data transfer services should apply to ElectraLink directly at:

ElectraLink Limited
3rd Floor, Northumberland House,
303-306 High Holborn,
London, WC1V 7JZ

Helpdesk Tel: 020 7432 3000
E-Mail: services@electralink.co.uk

1.4. Procedure for Applying for Metering Point Administration Services

An application for metering point administration services should be made in the first instance by telephone, by email or in writing to the following:

Leep Electricity Networks Limited
Level 2
Metro Building
33 Trafford Road
Manchester
M5 3NN

or by telephone to:
Tel: 0345 122 6786

2. Charges for Metering Point Services

2.1. Basis of Charges

The normal operating costs of providing a metering point administration service are included within LENL's distribution use of system charges. If an electricity supplier should request additional services, then a transaction charge will be levied by LENL. A table of these charges are provided in Section 2.2 overleaf. These charges are exclusive of VAT.

2.2. Table of Charges

The charges set out below are for transactional services associated with the provision of metering point services:
